MUJEEB ISHOLA

Full Stack Developer | WordPress Developer | Frontend Engineer
isholamujeebadekunle@gmail.com | Nigeria | Open to remote and relocation
Portfolio: iammujeeb.vercel.app | GitHub: github.com/Adekunle-hub | MseFunded: client-k2qn-mu.vercel.app

PROFESSIONAL SUMMARY

Full stack developer who builds web apps from start to finish, from the screens people use to the database behind them. I work on Orbgnost, a live ISO 14001 environmental compliance platform, and build client projects at Nerdbug. I also built MseFunded on my own: an AI-assisted search for funded MSc and PhD places in materials science.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, Redux, Zustand, TanStack Query
Backend: Node.js, Express.js, NestJS, REST APIs, JWT Authentication, Role-Based Access Control, Stripe
Databases: PostgreSQL, Prisma ORM, MongoDB, MySQL
WordPress: Custom Themes and Plugins, PHP, ACF, WooCommerce, Elementor
Tools: Git, GitHub, CI/CD, Vercel

WORK EXPERIENCE

Full Stack Developer | Orbgnost | *January 2026 – Present* | *Remote*
Environmental compliance startup. Joined as a freelancer; hired full-time in April 2026.

- Built the platform end to end with Next.js, Node.js, Express, Prisma and PostgreSQL. It is live at orbgnost.com.
- Put ISO 14001 compliance in one place: documents, legal register, incidents, audits, staff training and tasks.
- Kept each company's data fully separate on a shared platform, with secure logins and role-based access.
- Built approval flows, dashboards and reports, and set up CI/CD so new features ship quickly and safely.

Full Stack Developer | WordPress Developer | Nerdbug | *May 2026 – Present* | *Remote*
Software agency building web and mobile apps for clients across many industries.

- Build and maintain web apps and sites for clients in e-commerce, education, transport and crypto.
- Build custom WordPress themes and plugins (PHP, ACF, WooCommerce) so clients update content without a developer.
- Build React and Next.js front ends and Node.js APIs, and improve speed, SEO and reliability on every device.

Frontend Developer Intern | Zeelarax Technologies | *October 2025 – December 2025* | *Remote*

- Added multi-language support with the backend team, and built reusable components for the shared UI library.

Frontend Developer (Contract) | Sobisay Studios | *December 2024 – Early 2025* | *Remote*

- Built the brand's landing page alone, from brief to launch, in React and Tailwind: fast, search-friendly and on time.

PROJECTS

MseFunded — Scholarship Search for Materials Science Students client-k2qn-mu.vercel.app

- Solo build listing 200+ funded MSc and PhD places from 100+ universities and funders in 20 countries, each with an official link and checked deadline.
- Built an "Ask AI" assistant, field and country filters, an application tracker and WhatsApp deadline reminders. Stack: Next.js.

Soft-Cart — Full-Stack E-Commerce Platform soft-cart.vercel.app

- Product catalogue, cart, checkout, Stripe payments and secure login. Stack: React, Next.js, TypeScript, Node.js, Express, MongoDB.

EDUCATION

Bachelor of Engineering (B.Eng.) — Materials and Metallurgical Engineering
Kwara State University, Malete, Nigeria | 2020 – 2025 | First Class Honours | CGPA: 3.72/4.0

- Best Graduating Student, Department of Materials Science and Engineering — NSE and Faculty Awards, 2025.
- Member, Google Developer Groups — team product builds, technical workshops and hackathons.
